

TITLE OF THE STUDENT PRESENTATION

PresenterFirstName PresenterLastName¹, Other contributing authors such as graduate students¹,
MentorFirstName MentorLastName²

¹Department of XXX, PresenterInstitutionName, StreetAddress, City, State ZIPCODE

²Department of XXX, MentorInstitutionName, StreetAddress, City, State ZIPCODE

The text of the abstract goes in this section. Please use 12-point Times New Roman font. Each paragraph is indented with a tab. There is a 300-word maximum for the body of the abstract. All of the specific formatting requirements for abstracts are provided online at <http://cnmssymposium.umbc.edu>. The entire abstract should fit on one page with one-inch margins on all four sides. The presenting author's name (student) should be underlined. The presenting undergraduate author should be first author and the research mentor should be the last author. Any coauthors should be included between the first and last authors. Affiliations should be included for all authors/coauthors and noted using superscript numbers.

Abstracts that do not following this format, specifically the word count limit or formatting of the authors' names and affiliations, will be returned to the student for rewriting. The suggested content includes background, the research question, approach and experiments and conclusion. The abstract generally does not include figures or the data that you will put in the poster. Please check your spelling and grammar.

All abstracts **must** be reviewed and approved by the student's research mentor or by an individual authorized by the mentor to review and approve the abstract. Mentors must confirm they have reviewed and approved the abstract with the understanding that the abstract will appear in an event program book. An abstraction confirmation form is provided online. The submission deadline for abstracts is posted on the CNMS Undergraduate Research Symposium in the Chemical and Biological Sciences website. Abstracts must be submitted using the online abstract submission form. Specific instructions are posted on the Symposium website. This template's word count is 300 words not including the title or notations below.

Acknowledgements (left adjusted): Please include the grant or other support information for your undergraduate research on a separate line at the end of your abstract, if appropriate. This acknowledgement should also be included on your poster. The word count of the acknowledgement is not included in the 300-word maximum for the abstract. If you have any questions about the acknowledgement, please check with the coordinator or director of the program that is sponsoring you. If you are not affiliated with a program, please ask your research mentor what acknowledgement information is needed.

Note: Posters should not exceed 36 inches wide and no taller than 42 inches in portrait layout.

If you have any questions, send them to symposium@umbc.edu.
